

Scale And Chord Relationships: Lesson 6

By Christopher Schlegel

In this lesson we are going to use notes from the C major scale to get back and forth between two more chords: F major and G major.

We are gradually building up to using the C major scale notes in between a total of four different chords. In each case we will use notes of the C major scale that help us "walk into" the root note of the chord we are targeting.

In this current lesson we are using the notes B, A and G to "walk down" to the note G. This is the root note of the G chord, the chord we are targeting.
